Dr. Kollock in Nashville. The attention of the reader is especially called to the card of Dr. Matthew Henry Kollock, which is in another column. The doctor is a native of Norfolk, Va., (1834) of a prominent Southern family of Savannah, Ga. He is quoted as a standard authority by the "Ency-clopedia Britannica," Vol. X, page 185, the "largest and most important work in the world," being in twenty-five volumes, each the size of a large church bible. He is noted as the discoverer of the active principle of GEL-SEMINUM, a specific for neuralgia of the face and womb. The doctor has been all over the world, and has made many cures, especially at Hot Springs, Ark., given up by other physicians. Information Free.
